# NUAIA - The Other Language

## Release October 16th, 2026

*Heartfelt art-pop from one of Scandinavia's most exciting group*

The Swedish-Danish trio **Nuaia** proudly announces the release of their third album, ***The Other Language,*** on the Swedish label WIMPS Productions.

With ***The Other Language*** Nuaia invites the listener into a sonic world where alternative pop, free improvisation and electronica meet. Intimate songs, open textures and deeply personal stories unfold through vocals, drums, acoustic sounds and electronic landscapes.

Some of the new music leans towards songs, while other pieces move more freely through improvisation and atmosphere. Throughout the album, intimacy and expansiveness coexist, as do vulnerability and strength, leaving space for presence, listening and transformation.

***The Other Language*** explores communication on both a micro and macro level – everything that happens beneath the surface, and the invisible threads that connect us to one another and to the world around us. In symmetry with the surrounding world, we come into being – and can stretch out into the universe.

**Line up:**
Sofie Norling: vocals and live electronics
Mika Forsling: modular synths, pianette, electric guitar and cristal baschet
Michala Østergaard-Nielsen: drums and percussion

All music by Nuaia & lyrics by Sofie Norling.
